

SMART APPLIANCES

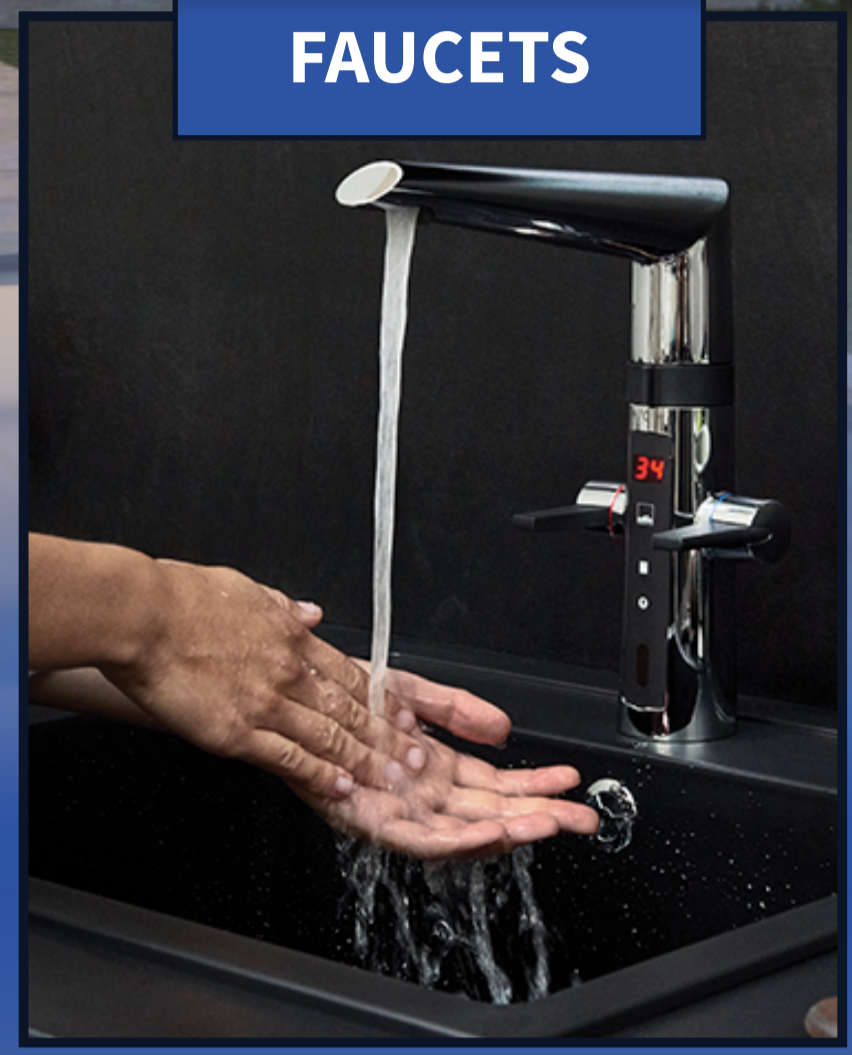

Most smart fridges allow you to see what is in your refrigerator in real-time from anywhere. Some also provide the feature to see expiration dates on all of your groceries so you can remember to eat them before they go bad, saving you the added cost of buying it again.

SECURITY SYSTEMS

Home security includes both the security hardware placed on a property and individuals' personal security practices. Security hardware includes doors, locks, alarm systems, lighting, motion detectors, and security camera systems.

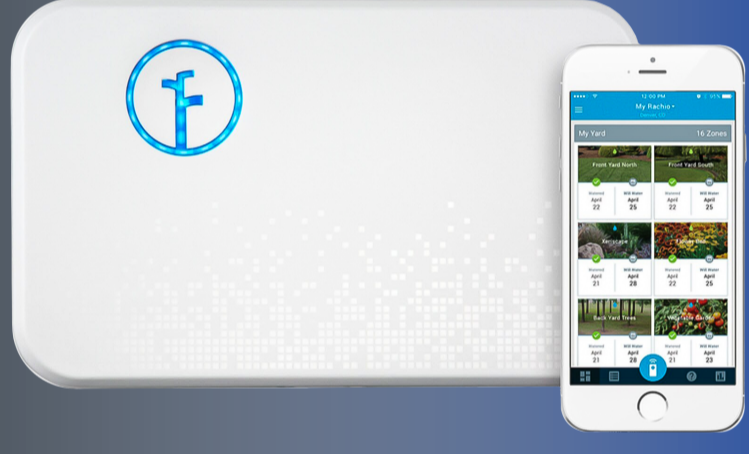

SMART FAUCETS

These faucets use motion sensors to capture hand swipes that activate them. One-touch: The faucets activate with a single tap from your hand, elbow or in some cases your foot. Voice-enabled: Vocal commands power on the water, adjust the temperature and power off.

SMART SPINKLERS

Smart irrigation adjust the watering schedule to actual conditions of the site.

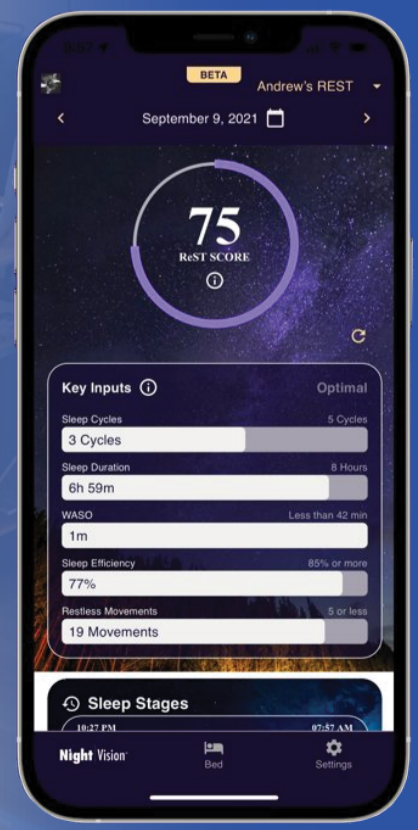

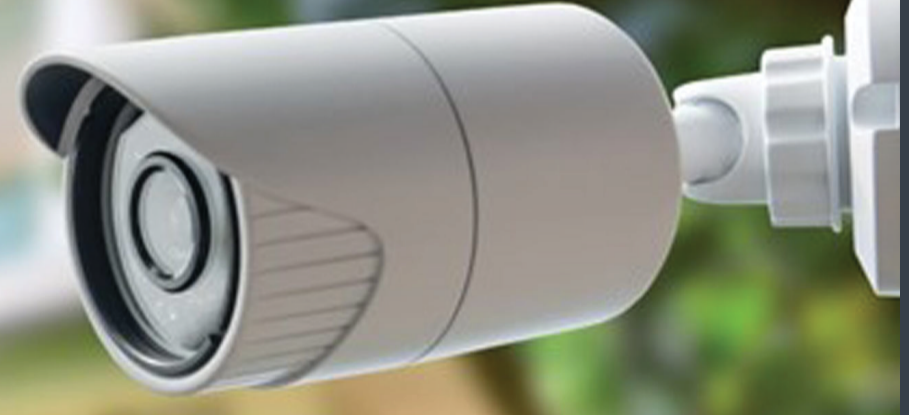

SMART SWIMMING POOLS

Operate a smart pool from the convenience of your smartphone.

SMART CAMERAS

Home Security Camera Systems Monitor Kids & the Elderly.

SMART BEDS

Proven Quality Sleep Helps Boost Energy, Recovery, And Wellbeing.
